COMMUNITY SPECIAL PROGRAM PARTNERS

FREE PROGRAM

Realizing that there is an absolute shortage of programs for children and youth with disabilities, the Community Special Program Partners (CSPP) officially began in January of 2003. The program serving individuals with developmental disabilities in the Greater Los Angeles Area is geared towards children starting at age 4 to young adults. The program enables them to participate in meaningful opportunities for self-growth, enhance learning, and improve on social skills. Based on 18 years of experience with the Sunday program at Young Nak Church, CSPP was incorporated as an independent entity and has secured its own nonprofit status as a public benefit organization. We have wonderful, caring and experienced staff.
