

Dental study for
children with
**Autism Spectrum
Disorders (ASD)**

Get two **FREE** dental cleanings
for your child!

**We are looking for volunteers to participate
in research to improve children's oral care.**

IF YOU PARTICIPATE:

- You will complete a set of surveys about your child's oral care.
- Your child will receive an autism and cognitive assessment.
- Your child will have two dental cleanings four to six months apart. One cleaning will be in a regular dental room. The other will be in a room with special lights and music.
- You will get money for participating and for transportation costs for each visit.
- Your child will get a small gift at each dentist visit.

YOU MAY QUALIFY IF:

- You speak English or Spanish
- Your child is 6-12 years
- Your child has autism spectrum disorder (ASD)
