The California School for the Blind provides intensive, disability specific educational services for enrolled students who are blind, visually impaired, deafblind, and visually impaired/multi-disabled, whose primary learning needs are related to their visual impairment.

In partnership with students, families, other consumers, local educational agencies, professional and community resources, California School for the Blind prepares students to participate at their highest level of independence in their schools, workplaces, and communities.

The California School for the Blind, as a State Special School of the California Department of Education, is a statewide resource offering expertise in the low prevalence disabilities of visual impairment and deafblindness through innovative model programs, assessment, consultation and technical assistance, professional development, research and publications, advocacy, and outreach.
