

Adapted Visual Art Classes

The following classes are specially adapted for children with special needs. Each class will be taught by Teaching Artist Meriel Stern from the Armory Center for the Arts, and additional support will be provided by a child development specialist from Pasadena Child Development Associates. The classes will be individualized to best match the learning styles of the children or teens, such as gradual introduction of new sensory experiences, and a modified curriculum with a focus on one medium. All children will be encouraged to advance to their highest ability. *Maximum: 10 students per class.*
