SUMMER @CIP

**Experience independence
and get a taste of college life**

CIPsummer.org

For students with Autism, ADHD, and other Learning Differences

Learn valuable skills alongside our expert staff to make a successful transition to college and beyond during these two-week programs at highly-rated campuses across the U.S.

EXPERIENCE INDEPENDENCE

Since 2009, Summer@CIP has helped hundreds of students prepare for their next steps; whether it's attending a college, preparing for the workforce, or learning to live independently. Summer@CIP provides young adults with learning differences the opportunity to further develop the valuable skills necessary for making a well-prepared transition.

GET A TASTE OF COLLEGE LIFE

Participants get a taste of CIP's comprehensive curriculum at a college setting which includes lessons in executive functioning, social skills, and life skills. Our programming does not include academics, as the focus of the program is to build life skills and have fun.

Students develop Person-Centered Plans, gain self-confidence, and experience independent living. They leave with lasting memories and lifelong friendships, and parents will have a personalized competency-based roadmap after the program is complete for their student.

*"The best decision we could have made for our son!
CIP's program is the answer for parents like us!"*

*- Father of John P.
CIP Summer Student*

"The Summer program at CIP was ideal for my teen - it was a perfect first 'away' experience and an excellent balance of independence with appropriate supports. The staff was great and truly worked with his individual needs!"

*- Mother of Jacob A.
CIP Summer Student*

FUN ACTIVITIES

Throughout our two-week sessions several fun and exciting activities are planned based on your student's area of interest. Spend some time outdoors this summer hiking, swimming, and exploring local highlights. Past students have enjoyed ropes courses, theme parks, and professional sports outings; this year will be no different! Participants will also have some scheduled downtime to relax and socialize with peers.

Admissions

Summer@CIP welcomes participants entering grades 10th, 11th, & 12th in the Fall, as well as recent High School graduates to apply. Generally, each program has up to 24 participants, and all students are screened to ensure a program fit. Applications are considered for the program on a rolling basis until capacity is reached at each of the program locations.
