# PRESS RELEASE

## Mystery Theater Horror Show!

Created by and performed by people with autism!

The Strindberg Laboratory presents: "The Mystery Theater Horror Show" performed at the Frida Kahlo Theater on June 25th at 4pm and July 1st at 4pm. The show uses puppetry, shadow theater, live acting and more to tell the story of a group of actors from outerspace who have created a theater in Palmdale CA. The show is an original creation and all of the stories and elements have been created by people with autism and other intellectual disabilities. The show is loosely inspired by the Rocky Horror Picture Show!

Mystery Theater Horror Show besides be entertaining deals with the important theme of displacement that the autism community and other marginalized communities know first hand. We hope this show will spur audiences to take action in their communities and come together so Los Angeles will become more inclusive of people from all backgrounds.
