

Advances in Treatment of Children with Down Syndrome

Join Nina Yoshpe, M.D. and a team of **multi-disciplinary** specialists from Miller Children's Hospital Long Beach for a special presentation on the **advances in treatment** of children with Down Syndrome.

Pediatric doctors from **10** different specialties, associated with Down Syndrome, will provide information on advancements in care.

Physicians and family members are both strongly encouraged to attend.

Saturday, June 2 | 8 a.m. - Noon

Houssels Forum at Miller Children's & Long Beach Memorial

Sub-Specialist Topics Include:

- Anesthesiology
- Genetics
- Gastrointestinal (stomach and intestines)
- Endocrinology (hormones and diabetes)
- Cardiology (heart)
- ENT (ear, nose and throat)
- Pulmonary (lungs and lung function)
- Sleep Apnea
- Ophthalmology (eyes)
- Speech Therapy

The event is **free** and a continental breakfast will be served. **Parking** will be validated.
