USES AND WHOM IT MAY BENEFIT.**

Go Talk NOW is an application from Attainment Company that is highly flexible and adaptable to a variety of individual needs and skill levels. The layout can be set up as a static system or a folder-based dynamic system. The cells are easily programmed using a symbol library or digital images. Pages can be adapted quickly and easily to adjust to an individual's needs. The application is highly versatile and can be a great tool for supporting individuals with communication needs. Come and learn more about the application and participate in some hands-on practice with the program.
