

How to Understand Intellectual Disability

Lanterman Regional Center in collaboration with the Learning Rights Law Center invites you to participate in this workshop.

In this workshop we will talk about the challenges parents and children face as they relate to a diagnosis of intellectual disability, including challenges in the areas of learning and cognition, speech and language, visual and auditory processing as well as behavior. In the same way, information on symptoms, possible causes, and challenges in diagnosis will be offered.

Presented by; Mariana Leñero
