UPDATE ON FDLRC STATS

Ms. Sullivan reported that on October 1, 2018, DDS drew the names of the initial 2,500 participants to be selected statewide, including 73 from Lanterman. She reported that there remains unanswered questions relative to implementation. Through a conference call that ARCA scheduled with DDS, Centers got a better idea of the upcoming process and implications for clients, families, and Regional Centers.

Mr. Kim reported that the Center has conducted 39 informational meetings in various languages; English, Spanish, and Korean. He reviewed a graph of the 73 Lanterman clients selected by disability, race, and age. The Committee started to brainstorm on how to proceed with orientation meetings. **Staff will bring a proposed Meet and Greet Plan to the next meeting.**

DDS UPDATE

Ms. Mark shared her knowledge of what is happening in her Center and across the State. The Committee had an open dialogue and shared facts and hearsay about the implementation and processes.
