The goal is for the SSDAC to identify self-determination best practices, effective consumer and family training materials, implementation concerns, systemic issues, ways to enhance the program, and recommendations regarding the most effective method for participants to learn of individuals who are available to provide services and supports.

Mr. Landry reminded this Committee that he sent them an email communication in early February soliciting their input on what they saw as their top priorities for action by the Statewide SDAC, and based on their experience, what would they like to see changed in the Self-Determination Program.

Mr. Landry reported that he received no input from the Committee. Mr. Landry will share the outcome from the SSDAC exercise when he receives it.
